Dana - You may not remember all the people you meet from day to day, but we were just in your shop yesterday. (I had the 2 kids that would have loved to take your whole sheet of stickers) I still can't get over how good my toe ring looks (I'm now convinced that I should have gotten the 2 small bands to go w/the braid), it's really weird how it kinda of gave me a boost in my self-confidence..who would have thought that a little \$20 ring could do that!!!! I'm sooo happy that we stumbled into your store! My husband and my brother-in-law were a little skiddish, thinking it was going to be a pricey shop with a snooty owner, boy were they way off...we were greeted very nicely, by a very friendly, down-to-earth person and were made to feel very comfortable and welcomed. So, thanks Dana and I hope your business continues to flourish and affect women the way it did me.
